

Robin and the Big Freeze

Risk Assessment

Updated August 2011

Hazard	Risk	Control Measures
Accidental tripping or falling on stage	Low	Action is choreographed to avoid accidents.
Large moveable, heavy set objects	Low	These are used in many ways, including moving them and climbing on them. Performers are used to this and do it safely. All movement with objects is choreographed.
Cables and instruments for sound and music	Low	Music area is away from main stage action, downstage right. All cables will be gaffered away from action. At least one musician is always at station
Fake snow blowing around the stage by fan and hand.	Low	Sequences with the fake snow are highly choreographed. The fan has a specific area, so that it does not blow snow towards audience
